

Regency Open Powder-Coated Steel Hose Reel with 50' x 3/8" Hose

#600HRPC50NS

Technical Data

Length	17 3/4 Inches
Width	8 1/16 Inches
Height	20.166669845581055 Inches
Hose Length	50 Feet
Hose Interior Diameter	3/8 Inch
Application	Air Water
Color	Black Blue
Features	Corrosion-Resistant

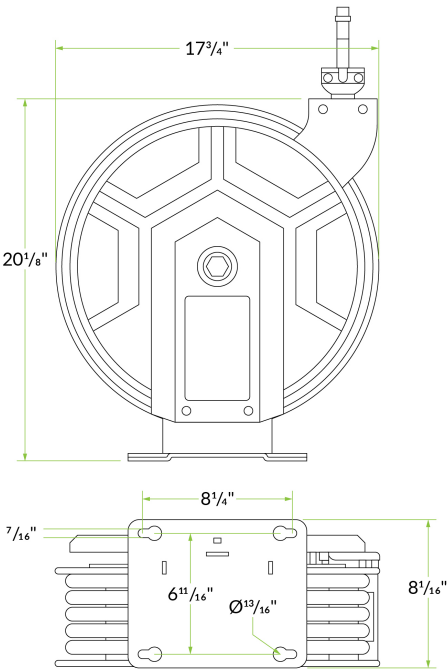

Features

- Corrosion-resistant, powder-coated steel reel houses 50' hose
- Single arm guide ensures precise control and effortless pulling / retracting
- Locking mechanism allows for locking at preferred length
- Includes a speed control device for slow, safe automatic rewinding
- Modular reel design for convenient maintenance and inventory

Technical Data

Included	Hose
Inlet Size	3/8 Inch
Material	Powder Coated Steel
Maximum Pressure	300 PSI
Maximum Temperature	140 Degrees F
Minimum Temperature	-4 Degrees F
Mounting Style	Surface Mounted
Pressure	Low
Return Style	Retractable
Style	Open
Type	Hoses Reels

Notes & Details

Equip your business with the Regency open powder-coated steel hose reel with a 50' hose! With a multi-fit bracket, the base is built to mount on a wall or floor for convenient access in janitorial locations and commercial kitchens. Highly versatile, this spring-driven hose reel can be located precisely where you need it. The modular reel makes for convenient maintenance and inventory, and it is designed for air and water applications. The hose features a 3/8" inner diameter, and it is housed on a powder-coated, corrosion-resistant steel reel for durable, long-lasting use.

This reel includes a single guide arm for precise control over the 50' hybrid polymer hose, which pulls and retracts smoothly and effortlessly for optimal performance. It has a locking mechanism that allows the hose to be stopped at any point to meet the users preferred length. It also includes a speed control device with a retraction time that is twice as slow as other models, which ensures safe and secure use when rewinding the hose. This unit has a 3/8 NPT outlet and it is rated to 300 PSI.
