Rack Style	Stationary
Style	Adjustable Vented
Type	Dunnage Racks Racks
Usage	All Environments Dry Environments Front of House Garage Retail Stock Rooms Warehouse

Notes & Details

Keep your storage area organized with the Regency 12" x 54" NSF black epoxy 1-shelf kit! This kit includes a 12" x 54" wire shelf and (4) 8" posts, which allow you to create a convenient storage solution for your janitorial closet, retail store, warehouse, walk-in cooler, or office space. For maximum versatility, the epoxy coating allows for use in either dry or moist environments, making the unit a multipurpose investment that's sure to accommodate your ever-evolving needs. Plus, because the coating is black, it's subtle and professional, perfect for office settings or for merchandising applications and front-of-house sales. This unit's high-quality design is commercial-grade and delivers the reliable performance every business expects and needs.

The shelf features a wire construction, which allows for proper airflow around the stored supplies, products, or ingredients. Since the posts are marked in intervals and use a split sleeve system of assembly, the shelf is easy to move higher or lower along the posts. This is especially great for expanding businesses that may not have finalized their product offerings. A set of 4 split sleeves is provided, and the shelf accommodates up to 600 lb. of weight. Likewise, a foot is provided for each post and must be used for proper installation. The shelving unit requires assembly.
