Notes & Details

As part of the Regency Space Solutions collection of black epoxy coated wire shelving, you can count on this 48" hanger rail to work with your shelving to provide extra storage space in your humid storage areas. Use this Regency black epoxy hanger rail in your non-air conditioned storage rooms, garage storage areas, or even in your retail space to add practical and professional-looking storage. This hanger rail has a weight capacity of up to 60 lb. so that you can store plenty of textiles, pots and pans, and much more! This hanger works with Regency shelving posts as well as posts from Metro and other brands. Split sleeves are sold separately.
