Notes & Details

Outfit your back-of-house storage space with the convenience of this Regency 12" x 36" chrome wire cantilever shelf. The shelf features a bright chrome finish and is recommended for dry storage applications, perfect for food service operations and offices. It attaches to 2 Regency posts (sold separately), which support the shelf and eliminate the need for additional posts. This cantilever design is great for space-efficiency, creating an overhead storage solution without drilling into the wall.

The shelf accommodates up to 150 lb. of weight, great for storing paper products, linens, cooking utensils, or back-up office supplies. It even features a retaining ledge around the perimeter to prevent its contents from sliding off. Plus, because it's 12" in width, it won't jut out into the aisle; it safely keeps your storage area neat, organized, and easily accessible.
