Notes & Details

Keep gloves on hand with this Regency chrome glove box holder. This unit holds 1 standard sized glove box (sold separately), making it easy for employees to access and grab gloves. It conveniently hooks onto your Regency wire shelving, providing a secure hold that can withstand frequent use and saving your business valuable shelf space. You can also move and adjust the holder over and over again as your storage needs change, making it easy to customize your shelving unit to meet your business's unique requirements. This easy removal will come in handy when you need to clean your holder or your shelves. Designed to maximize your shelf capacity, this functional glove holder is sure to create efficient and valuable storage space for your commercial kitchen.

Made of strong chrome-finished wire, this glove holder is designed to add convenience, function, and style to your Regency shelves. Its chrome finish is ideal for use in dry, back-of-the-house environments and will match perfectly with your Regency chrome shelving unit. The perfect fit for your commercial kitchen, this holder makes storage simple by allowing you to keep your shelves organized and your gloves accessible at all times. Make the most of your shelf space with this Regency glove holder!
