- Keeps bottles in proper storage position
- Add onto existing Regency shelving units
- Vented design enables proper air circulation

Certifications

Certified by NSF

Technical Data

Material	Metal Wire
Type	Components Wine Shelves

Notes & Details

This Regency 14" x 48" wire wine shelf is the perfect way to store up to 11 bottles of your finest wine! Because of wine's delicate nature, it is important to store bottles on their sides, and bottles should be slightly tilted, cork down, on the shelf for best quality. The shelf features an attractive chrome finish and is designed for use with 750 mL wine bottles.

This item only includes one shelf; additional shelves and posts are extra. Combine multiple wine shelves to create a full wine storage station, or add this shelf onto your existing flat shelf Regency storage unit for great versatility! Plastic split sleeves are included so you can easily attach this wine shelf to any Regency post.

Bottles with shorter necks may need to be moved so that the bottom of the bottle is touching the rear of the shelf in order to achieve proper positioning.
