Notes & Details

Make the most of your space with this Regency 18" deep NSF green epoxy wire pentagon corner 4-shelf kit with 74" posts. This unique pentagon-shaped kit is a great way to increase storage capacity by utilizing space that would otherwise be left empty. It comes with (5) 74" posts and 4 shelves with an 18" depth on either side for easy positioning against corner walls. The shelves also feature one angled front side that takes up less space than a traditional shelf, so it fits corners perfectly without protruding. This kit can also be used with standard shelves of a similar size to create a cohesive storage unit within your facility. Incredibly easy to install, this kit can be quickly assembled once it arrives so that you can begin using it immediately!

For maximum versatility, the green epoxy coating on this shelving unit allows for use in either dry or moist environments, making the unit a commercial-grade, multipurpose investment that's sure to accommodate your ever-evolving needs. Each shelf features a wire construction, which allows for proper airflow around the stored supplies, products, or ingredients. Plus, these shelves are adjustable using the 20 included split sleeves, and each post includes a foot that is required for proper installation. Each shelf accommodates up to 600 lb. of weight, making it ideal for storing bulk heavy supplies. The high weight capacity helps the shelf accommodate business growth as storage needs evolve and product inventory expands.
