

Regency 24" x 36" NSF Green Epoxy Wire Drying Rack Shelf - 3" Slots

#460EG2436DR3

Technical Data

Length	36 Inches
Width	24 Inches
Assembly Options	Assembly Required
Capacity	10 Pans 110 lb.
Color	Green
Component Type	Drying Rack Shelves Shelves
Features	NSF Certified
Finish	Epoxy

Features

- Capable of holding up to 10 sheet pans
- Open design facilitates airflow between and around products
- Can be used either for drying or storage purposes
- Large 3" slots allow for thicker pans
- Green epoxy coating is durable and easy to clean

Certifications

Certified by NSF

Technical Data

Material	Metal Wire Steel
Style	Stationary Vented
Type	Components Drying Racks for Shelves
Usage	All Environments Dry Environments Kitchens Moist Environments Walk-Ins

Notes & Details

This Regency green epoxy drying rack shelf is the perfect addition to any commercial kitchen, school, restaurant, or catering business! Capable of holding up to 10 sheet pans, this shelf has a green epoxy coating that is durable and easy to keep clean. The 3" slots are ideal for thicker sheet pans and have dividers that keep the pans from touching and allow for proper airflow for drying.

The open design lets water drip freely through it without collecting, decreasing overall drying time. In addition to drying purposes, this rack can also be used to neatly store pans, keeping them easily accessible to grab and go without having to separate them from a stack. Each corner is fabricated with a collar meant for a compatible upright (sold separately) to slide into it for simple shelf assembly. This simple method of assembly makes this shelf the perfect solution for on-the-go catering companies who want to quickly set up and tear down for events.
