Notes & Details

Keep your storage area organized with the Regency 24" x 36" NSF green epoxy mobile shelf kit! This kit includes (4) 24" x 36" wire shelves and (4) 64" posts, which allow you to create a convenient storage solution for your janitorial closet, warehouse, or walk-in cooler. For maximum versatility, the epoxy coating allows for use in either dry or moist environments, making the unit a multipurpose investment that's sure to accommodate your ever-evolving needs. Plus, the unit's high-quality design is commercial-grade and delivers the reliable performance every business expects and needs.

Each shelf features a wire construction, which allows for proper airflow around the stored supplies, products, or ingredients. They're adjustable, too; since the posts are marked in intervals and use a split sleeve system of assembly, the shelves are easy to move higher or lower along the posts. This is especially great for expanding businesses that may not have finalized their product offerings.

The posts accept the included 5" casters with brakes, providing quick and easy mobility. Because the casters are equipped with brakes, you can easily lock the unit in place when needed. 16 pairs of split sleeves are provided, and each shelf accommodates up to 600 lb. of weight. This shelving unit requires assembly.
