Usage	Dry Environments Front of House Garage Kitchens Retail Stock Rooms Warehouse

Notes & Details

Keep your storage area organized with this Regency 24" x 36" NSF chrome shelf kit. This kit includes (3) 24" x 36" wire shelves, (4) 34" posts, and a 1/2" thick food-grade plastic removable shelf insert on the top shelf, which allow you to create a convenient storage solution for your restaurant, hotel, bar, warehouse, or garage. Since this shelving unit has a sleek chrome finish for increased longevity, it's the perfect choice for use in any dry storage or display environment with minimal humidity. Able to accommodate an impressive 600 lb. of evenly distributed weight, this unit's shelves can be used for displaying everything from light weight boxes of pastries to heavier items like cans of ingredients. Plus, the removable plastic insert creates a solid base on the top shelf that doubles as an excellent cutting board surface. For easy accommodation on slanted, uneven surfaces, the posts also include adjustable leveling feet.

This kit boasts an attractive wire construction that works well in front-of-house merchandising, as well as display spaces in your boutique, market, or other business venue. Its wire shelves also do a great job of facilitating proper airflow around your stored supplies, helping to prolong the shelf life of food. The shelves are easy to move higher or lower depending on your organizational needs since the posts are marked in regularly spaced intervals and use a split sleeve system of assembly. If you want all shelves within the unit to have removable plastic inserts, you can easily add additional inserts (sold separately) to complete the set. This kit is especially great for expanding businesses whose needs evolve as their product inventory expands!
