Certified by NSF

Technical Data

Rack Style	Stationary
Style	Vented
Type	Racks Shelving Kits
Usage	Stock Rooms Warehouse

Notes & Details

As part of the Regency Space Solutions' wire shelving collection, this 18" x 36" chrome wire standard duty dunnage rack is great for use in dry storage and heated environments. The wire shelf and the other components are made of a durable, chrome-plated metal, with a clear epoxy coating. This chrome wire shelving is capable of holding up to 600 lb. of evenly distributed weight when properly assembled to give you all the storage capacity you need. This standard duty dunnage rack comes with four 14" tall shelving posts which ship with attached leveling feet that easily adjust to accommodate uneven surfaces. To add stability, it includes one Regency three sided wire shelving frame. The three-sided design attaches to all four posts of your dunnage rack to make sure that your storage unit is strong and secure, no matter how much you need to store.

Overall Dimensions (Assembled):

Length: 36"
Width: 18"
Height: 14"
