Notes & Details

Hold and transport a wide variety of your most popular baked goods with the Regency enclosed bun / sheet pan rack. The sheet pan rack can accommodate up to (40) 18" x 26" full-size pans or 80 half-size pans, while integrated rail-type ledges are spaced at 1 1/2" intervals and not only offer sturdy support but also ensure safe and easy transport of your pans. The enclosed design with a clear acrylic door for added product visibility, along with the built-in latching mechanism, provides unparalleled storage security.

Aluminum construction ensures long-lasting durability, and the rack is mounted on four 5" rubber swivel casters, including two with brakes, for effortless mobility throughout any commercial kitchen or bakery. For added convenience, this item's welded construction allows it to be used right out of the box! This saves significant time and labor during setup. Users can simply unpack it, place it in its desired location, and proceed to put it to use.
