### Notes & Details

This Regency full size stationary aluminum can rack for #10 and #5 cans is an ideal choice for restaurants, hospitals, retirement communities, schools, and other food service businesses that need to store large numbers of food cans! Designed to hold up to (162) #10 cans or (216) #5 cans, this unit can be loaded from the front or the rear so your staff can utilize a first in, first out system for stock rotation.

Made of all-welded, 1 1/2" aluminum tubing, this can rack is built to take a beating in your commercial or institutional environment. Additionally, it features angled can guides that allow cans to roll to the front of the unit for easy access. This can rack ships assembled so that you can immediately start using it to organize your storage space.
