Notes & Details

Ensure your storage area or end cap display stays organized with this Regency 24" x 18" x 6" black plastic heavy-duty side stack dunnage shelf. This display shelf is a great way to organize, store, or display products on endcaps or in storage areas. It allows you to keep extra supplies on hand and ensures your establishment maintains an orderly system. This shelf is constructed of durable polyethylene that won't crack, chip, rust, bend, or break, and it offers smooth edges to reduce the chance that your bags and products will rip or tear open.

With a 6" height, this shelf meets HACCP requirements for food storage, and it offers antimicrobial protection. This shelf also features open ends to make cleaning under it fast and easy. Because it is made from plastic, this rack is also suitable for both dry and cold storage areas, and it has an ample capacity of 1,000 lb. for all your storage needs. It's great for storing heavy bulk goods, liquids, and dry goods, and you can even move the rack around using a forklift or pallet jack to save time. Best of all, this shelf ships fully assembled so you can use it right away!
