Notes & Details

Keep large or heavy items off the floor with this aluminum dunnage rack. Constructed of heavy-duty aluminum and boasting a 1,500 lb. weight capacity, this dunnage rack is great for storing heavy items. Its aluminum tubes are welded to the frame horizontally on 4 1/2" centers, ensuring a sturdy surface.

This unit's corrosion-resistant construction makes it ideal for use in coolers and freezers, but it also works great in front-of-house applications. It features mitered legs for enhanced strength, while its plastic feet help protect your floors from damage. Conveniently store heavy tools, equipment, or inventory with this aluminum dunnage rack!
