Notes & Details

Easily keep pans stacked and out of the way with this Regency 7 pan end-load sheet / bun pan rack. Made of sturdy aluminum, the rack maximizes storage space by holding up to 7 full-size sheet pans with 3" of space between each extruded aluminum pan slide. Just place it on the counter as you're working, and slide pans into the rack as they're filled with product. It's a great space-saving solution that's sure to keep your prep area clean and organized!

Plus, the 1" extruded tube frames and cross supports provide structural integrity and strength, so you can be sure that the rack is built to withstand tough, constant use. Each shelf can safely accommodate up to 30 lb. of weight too, which is great for a wide range of product, from airy meringue cookies and delicate candies to dense baked goods. And to provide you with the best possible savings on shipping costs, this unit ships unassembled.
