Style	Adjustable Solid Stationary
Type	Office Shelving Shelving Kits
Usage	All Environments Dry Environments Garage Kitchens Outdoor Stock Rooms Walk-Ins Warehouse

Notes & Details

Keep your storage area organized with the Regency Spec Line 24" x 48" NSF stainless steel shelf kit! This kit includes (4) 24" x 48" solid shelves and (4) 74" posts, which allow you to create a convenient storage solution for your janitorial closet, warehouse, or stock room. Unlike wire shelving where small components may slip through the cracks or leaking packages may contaminate products on lower shelves, these solid shelves allow you to confidently store products of any type and size.

Whether you need to store bulk ingredients, heavy prep tools, cleaning supplies, or even small industrial components, these spacious shelves give you plenty of room to store all of your essential supplies. They're adjustable, too! Since the posts are marked in intervals and use a split sleeve system of assembly, the shelves are easy to move higher or lower along the posts. This is especially great for expanding businesses that may not have finalized their product offerings.

16 pairs of split sleeves are provided, and each shelf accommodates up to 700 lb. of weight. Likewise, a foot is provided for each post and must be used for proper installation. Made of durable 18 gauge, 304 stainless steel, this commercial-grade shelving unit is sure to provide the reliability you need. The shelving unit requires assembly.
