Notes & Details

Keep your storage area organized with the Regency Spec Line 12" x 60" NSF stainless steel 5-shelf kit! This kit includes (5) 12" x 60" wire shelves and (4) 64" posts, which allow you to create a convenient storage solution for your restaurant, hotel, bar, warehouse, or garage. Since this shelving unit has a corrosion-resistant stainless steel finish, it's the perfect choice for versatile use in both wet and dry environments. Plus, the unit's high-quality design is commercial-grade and delivers the reliable performance every business expects and needs.

Each shelf features a wire construction, which allows for proper airflow around the stored supplies, products, or ingredients. They're adjustable, too; since the posts are marked in intervals and use a split sleeve system of assembly, the shelves are easy to move higher or lower along the posts. This is especially great for expanding businesses that may not have finalized their product offerings.

20 pairs of split sleeves are provided, and each shelf accommodates up to 700 lb. of weight. Likewise, a foot is provided for each post and must be used for proper installation. The shelving unit requires assembly.
