Notes & Details

Enhance the efficiency of your bar setup with the Regency Spec Line cocktail station. This complete bar station boasts an elixir station that can fit up to 6 bottles and a convenient trash chute that's 10" in diameter. The trash chute can fit trash cans that are up to 18" tall and 11 13/16" wide. The double speed rail provides immediate access to frequently used liquor and mixers, ensuring smooth and swift service during peak hours. Crafted from durable stainless steel, this cocktail station is built to withstand the rigors of a busy bar environment, making it a reliable addition to any commercial bar setting.

This unit has an 18 gauge, type 304 stainless steel top shelf, backsplash, apron, and bottom, as well as 16 gauge stainless steel legs and U-shaped cross bracing for maximum durability. Stainless steel sockets and bullet feet provide stability, while the included 14 gauge, type 304 stainless steel blender shelf provides a stable structure for your blender. A pre-cut hole fitted with a grommet allows convenient access to plug in blender power cords and keep them tucked away out of sight. The 10-circuit cold plate provides capacity for your most popular chilled sodas or beverage mixers.

The included 9 1/4" x 11 1/2" sink bowl is 6" deep and includes 4" centers for convenient faucet installation (faucet sold separately). Featuring a liquor display rack, this cocktail station expands your available liquor selection and provides a sleek presentation. The 7" backsplash includes tubing access holes for added convenience. This unit has an insulated drop-in ice chest that comes equipped with a 1 1/2" drain and 4" tailpiece, along with 2 plastic bottle holders for organized storage. Elevate your bar service with this efficient and durable cocktail station that is designed to streamline operations and enhance the overall customer experience.
