Notes & Details

Equip your facility with the perfect sink with this Regency custom stainless steel sink! This sink offers a variety of customizable options to create the perfect fit for your specific establishment. With a customizable length, this sink will accommodate your existing space. It can be constructed of 14 or 16 gauge stainless steel to meet your durability requirements. Choose to add 1, 2, 3, or 4 sink compartments to meet the demands of your kitchen. For additional convenience, this unit allows you to select the dimensions of the sink bowls.

This sink allows you to add 1 or 2 drainboards or to have no drainboard attached. By adding a drainboard, you can air dry dishware without leaving behind puddles. This unit allows you to add a drainboard on the right side, the left side, or on both sides. For additional versatility, you can select modifications such as adding side splashes, extra bracing and support, and faucet centers to accept a splash-mounted or deck-mounted faucet. You can also add a lever twist drain and an overflow kit. Thanks to this custom unit, it is easy to create the perfect sink for your facility.
