Notes & Details

Enhance safety and sanitation while improving the quality of your ice by adding this Regency Spec Line sliding lid to your 48" wide Regency Spec Line underbar ice bin (sold separately)! Many municipalities require that underbar ice bins have a cover, and this lid will help you stay in compliance. Made of 18 gauge type 304 stainless steel, this lid offers exceptional durability, corrosion resistance, and better cold retention. Thanks to its front to back sliding design, this lid is easy to open and close, so it won't slow you down while you're making drinks in your busy bar or restaurant.
