Notes & Details

This stainless steel beer box divider is a great way to keep the interior of your unit organized and partitioned for easier service. Keep beer separate from sodas or seltzers, or organize different flavors or styles of beverage so that your staff and customers can find what they need. The divider is removable so that you can take out and add partitions as needed, and place them where it's most convenient. And since it's made from corrosion-resistant stainless steel, you can be sure that it will stand up to years of use. It's suitable for use in Regency beer boxes.
