Notes & Details

Keep your countertops and floors clean in your bar or club with the help of this Regency beer drip tray. Featuring a surface mount design and a 3" column cutout for easy installation around your existing beer tower, this product provides the perfect spot for bartenders to funnel away beer foam or set drinks down before serving. Working to catch any overflow and prevent drips and spills before they reach the surrounding surfaces, this drip tray ensures the utmost safety by minimizing the risk of your bartenders or customers slipping on the wet floor.

Made of 18 gauge, type 304 stainless steel, you can expect a tough and durable composition, as well as the benefit of being non-corrosive. Plus, the included 1/4" NPT threaded brass drain optimizes efficiency for long-term, high-volume usage applications. The perforated top grate is also removable for easy cleaning and maintenance, preventing overflows on the floor or counter. Perfect for catching spilled drinks and beer foam, equip your high-volume bar, pub, or club with this drip tray to keep your space sanitary and up to code!
