Spout Type	Gooseneck
Stainless Steel Type	Type 304
Type	Hand Sinks

Notes & Details

Keep your restaurant up to code without sacrificing space with this hand sink with a single 9" x 9" x 4" bowl. This easy-to-clean, compact sink easily fits in tight spaces and securely attaches to the wall or a surface to open up floor space for other uses. The economical, 20 gauge type 304 stainless steel construction on the top and bowl offer durability to stand up to daily wear and tear. Additionally, the reliable 18 gauge type 304 stainless steel wall mount clip provides stability.

For proper drainage, a removable 1 1/2" IPS drain basket is included to eliminate the possibility of drain clogging. By regularly maintaining your drainage system, you will cut down on possible service and replacement costs. To help limit possible contamination, an 18 gauge type 304 stainless steel side splash is included with the sink. This added protection allows you to place the sink closer to work counters and other high-traffic areas without worry.

With this convenient 8" high backsplash any water splashes will be confined inside the sink and then directly drip down into the drain. This added feature helps maintain the integrity of your wall and floor to keep your establishment in its best condition. A Regency 8" gooseneck faucet with 1.2 GPM aerator is included for excellent reach and clearance. The added height will provide sufficient space for comfortable hand washing. This hand sink has 2 holes punched on 4" centers to accept the included gooseneck faucet.

Kit Includes:

- Regency 1.2 GPM gooseneck faucet (Item 600FW44G12)
- Regency 12" x 16" wall-mounted hand sink with left side splash (Item 600CHS12SPLFTC)
