Certifications

Certified by NSF

Notes & Details

A great addition to Regency dish tables with 20" x 20" sink bowls, this Regency pre-rinse basket will save you time and money by protecting your plumbing and drain systems from becoming clogged with large food particles and debris. The basket easily fits over your sink bowl with its convenient lipped design, while 2 stainless steel rails allow dishwasher racks to effortlessly slide over the top. This added convenience allows you to keep the basket in place on dish tables without disturbing your workflow. When you're done, simply dispose of the collected food waste and set it up again for the next round of scrapping!

Made of 18-gauge, type 304 corrosion-resistant stainless steel, this basket is built to last and to withstand the rigors of a busy commercial kitchen. It is designed to work with standard dish and glassware rack designs to make washing them as easy as possible.
