Notes & Details

Maintain a sanitary environment in your restaurant, stadium, or manufacturing facility by providing a convenient way for people to quickly wash their hands with this Regency single-hole multi-station hand sink for four wall-mounted faucets! Made of rugged 16 gauge type 304 stainless steel, this sink is rust- and corrosion-resistant. It's extremely durable and built for everyday commercial use.

Perfect for industrial applications, the advantage of a multi-station sink is that employees don't have to wait their turn to clean up. This extra wide sink bowl will allow up to four people to use the sink at a time, reducing the amount of time people have to wait in line. This helps to maintain cleanliness in your business and prevent the spread of germs, keeping your employees healthy.

This free-standing sink station includes four holes, allowing you to add four compatible single-hole faucets of your choosing (sold separately). Installing compatible hands-free, wall-mounted gooseneck faucets would be the perfect addition to this sink, as the gooseneck shape provides the right amount of clearance for handwashing. Likewise, the spacious 8" deep sink bowl is designed to accommodate multiple users for handwashing applications.

The unit's legs are made of stainless steel, and they feature flanged feet. A 3 1/2" high backsplash protects your walls from splashing and water damage. Plus, the included 3 1/2" drain basket keeps your drain clog-free. This unit comes with a 1 1/2" IPS drain connection. For safety, the outer edge of the sink bowl is curled under to eliminate any sharp edges.
