Notes & Details

Assemble your Regency stainless steel equipment or keep it maintained for many years of profitable use by utilizing this Regency set screw packet! Great for new start ups or a business that is already up and running, this packet of screws is good to have on hand so you are always prepared to repair and maintain your Regency equipment. Since this packet comes with 25 set screws you'll have plenty of hardware to keep your units in working condition. Plus, this packet of hardware includes an allen wrench so you don't need to worry about whether or not you have the correct wrench size already on hand.
