Notes & Details

Efficiently wash and sanitize your hands with this Regency wall-mounted hand sink! This hand sink is made of 20 gauge type 304 stainless steel along its top, bowl, and backsplash, guaranteeing reliability and durability. This material is corrosion-resistant when properly maintained. This sink is easy to clean and provides an affordably-priced hand washing station for any commercial kitchen. It features a single deep drawn 10" x 14" x 5" sink bowl with a compact design that allows the sink to fit in tight spaces and securely attach to the wall or a surface to open up floor space for other uses. To help limit possible contamination, two 18 gauge type 304 stainless steel side splashes are included with the sink. This added protection allows you to place the sink closer to work counters and other high-traffic areas without worry.

This hand sink comes with a wall-mount clip, only requiring 3 screws (sold separately) to complete installation. For proper drainage, a removable 1 1/2" IPS drain basket is included to eliminate the possibility of drain clogging. With a convenient 9 1/2" high backsplash, any water splashes will be confined inside the sink and then directly drip down the drain. This added feature helps maintain the integrity of your wall and floor to keep your establishment in its best condition. This hand sink includes a strainer and has two holes punched on 4" centers for a wall-mounted faucet (sold separately).
