

Regency 17" x 15" Wall Mounted Hands-Free Hand Sink with Knee Operated Eyewash Station

#600HS17KEYE

Technical Data

Length	17 Inches
Width	15 1/4 Inches
Height	18 1/2 Inches
Spout Length	6 Inches
Bowl Depth	5 Inches
Backsplash Height	9 1/2 Inches
Faucet Height	9 1/2 Inches
Backsplash	With Backsplash
Basket Drain Size	1 1/2 Inches
Bowl Front to Back	10 Inches

Features

- Includes hands-free 6" gooseneck knee-operated faucet with pull-activated eyewash station
- 20 gauge type 304 stainless steel construction
- 14" x 10" x 5" bowl with no-drip countertop edge
- Includes 1 1/2" IPS drain basket
- 9 1/2" high backsplash, (1) 3/8" - 18 NPT supply inlet

Certifications

Technical Data

Bowl Left to Right	14 Inches
Color	Silver
Faucet Centers	Single
Features	BPI Certified Eyewash Station Hands Free Knee Pedal NSF Certified
Flow Rate	1.8 GPM
Gauge	20 Gauge
Included	Faucet
Installation Type	Wall Mounted
Material	Stainless Steel
Number of Drainboards	None
Number of Faucets	1 Faucets
Plug Type	NEMA 1-15P NEMA L6-30P
Spout Clearance	5 Inches
Spout Type	Gooseneck
Stainless Steel Type	Type 304
Type	Hand Sinks
Water Inlet Size	1/2 Inches

Notes & Details

Clean hands and proper emergency preparedness measures keep all aspects of your business running smoothly, and with this Regency 17" x 15" hands-free hand sink and eyewash station, you'll be able to meet health code regulations and help promote a cleaner, healthier work environment for you and your customers. This easy-to-clean, easy-to-install compact sink easily fits in tight spaces and securely attaches to the wall, opening up floor space for other uses.

It features 20 gauge stainless steel construction on the top and bowl, which provides the durability needed to stand up to daily wear and tear, at a price point that won't break the bank. Type 304 stainless steel is used to give the sink additional corrosion resistance where you need it most. It features a 14" x 10" x 5" bowl with no-drip countertop edge that keeps splashes and spills contained and encourages water to flow down into the sink bowl, rather than sitting on the sink or dripping down the side and onto the floor.

This sink also comes with a hands-free knee-operated faucet with a 6" gooseneck spout and a pull-activated eyewash station, which lets you use it for normal hand-washing and quickly convert for emergency eyewash applications if needed. Great for laboratories, battery charging stations, or even high-dust applications like construction sites, the eyewash is activated by a simple pull knob. Each outlet head delivers a soft, aerated flow of water for thorough eye rinsing, with adjustable angles and dust covers to protect it when not in use. Because a knee valve activates water flow instead of your hands, it reduces the opportunity for germs to spread and allows you to use the eyewash more effectively. This also prevents the faucet from running when it's not needed, which helps to cut down on your water bill. The faucet installs through the pre-drilled hole in the sink's backsplash, while a single 3/8" - 18 NPT supply inlet makes it easy to attach it to your water line. A 1 1/2" IPS removable drain basket makes it easy to catch debris and remove it for easy clean-up. A 9 1/2" high backsplash guards your walls against water, dirt, and debris.
