Notes & Details

Ensure that your hands-free hand washing sink is ready for use with this Regency multi-station hand sink for 2 faucets! Made of rugged 16 gauge type 304 stainless steel, the sink is not only rust- and corrosion-resistant, it's extremely durable and built for everyday commercial use. This wall-mounted sink station includes 2 sets of holes for single-hole faucets. The spacious 8" deep sink bowl is designed to accommodate multiple users for handwashing applications, making it so employees don't have to wait their turn to clean up.

For ease of use on day one, 2 wall-mount hand sink faucets with 6" gooseneck spout are included. The 9 1/2" tall, swivel design of the faucets provide plenty of clearance for comfortable hand washing, and the durable, chrome-plated brass construction ensures longevity. Plus, the faucets have single, 1/2" NPT female inlets that install directly to your sink's water line.

This package comes with 2 pedal knee valves and knee valve brackets to hold the valves in place. Faucet handles are a key contact point for the spread of germs since many people touch them frequently, so having a knee valve improves sanitation by removing the handles and allowing you to operate the water flow with a convenient pedal system. It has a 3/8"-18 NPT inlet to connect to your water lines, and a 3/8"-18 NPT outlet to connect to your faucet.

Kit Includes:

- (1) Regency 48" x 17 1/2" single-hole multi-station hand sink for 2 wall-mounted faucets
- (2) Regency wall-mount hand sink faucets with 6" gooseneck spouts
- (2) Regency single pedal knee valves
- (2) Knee valve brackets
