Notes & Details

Effectively store liquor bottles within convenient reach of the bartender while creating a unique display for customers with this Regency 36" wide liquor display rack! At 26" deep, this rack accommodates approximately 30 liquor bottles and, thanks to the stepped five-tiered design, all bottles are clearly on display at all times within a 36" wide footprint. A 6" backsplash helps protect the walls and floor around the unit from accidental splashes and spills, while a 2" wide integrated bar on each tier helps hold bottles in place for added assurance.

Built for reliable, long-lasting performance, this Regency liquor display rack features an 18 gauge type 304 stainless steel bottom, back, sides, hat channel, and steps. That not only makes for a durable addition to your bar setup, but also one that is extremely simple to clean! The galvanized steel legs are held firmly in place by cross bracing for impressive stability and are supported by four plastic bullet feet, helping to ensure reliable use on a daily basis behind your bar.
