Notes & Details

Take your bar service anywhere with this Regency 70" stainless steel portable bar with open front and two removable speed rails! Designed for easy drink preparation and serving, this portable bar comes with dual surfaces for creating delicious drinks as well as presenting those creations to customers. Located directly below the 3/4" thick black laminate top, the work top creates a row to lineup drinks and quickly add ice, garnishes, straws, and more. This differentiation also ensures guests do not grab drinks before they're ready to go, so you have happy customers and fewer spills! Designed for easy drink preparation and serving, this portable bar comes with two removable speed rails so that you can keep the most popular syrups and liquors right at your fingertips!

Thanks to its all-welded type 304 stainless steel construction, this portable bar does not retain odors from spills and is easy to wipe clean and sanitize. Six 6" polyurethane swivel casters enable you to effortlessly reposition your bar for new events or thorough floor cleaning. When ready to lock the bar into position, flip down the two casters with brakes. Plus, the four corner bumpers offer superior protection for your walls and furniture during transportation. The left and right bottom sections are perfect for keeping your prep tools, ingredients, mixes, garnishes, ice, and glasses. They're also a private place to store staff's personal possessions or money boxes. The open space in the middle can even be used for storing a cleaning bucket or mobile ice bin. This portable bar will make beverage service in your banquet hall, hotel lobby, outdoor wedding reception, or poolside terrace a breeze!
