Notes & Details

Outfit your facility with a long-lasting sink with this Regency one compartment commercial sink. It's constructed from high-quality, 16 gauge, type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18 gauge, type 430 stainless steel. It's dipped a minimum of 1/4" to facilitate better drainage, and the welded construction contributes to the long-lasting use and overall strength of this sink.

The 16" x 20" x 12" sink bowl is die-stamped to a minimum of 1/4" to ensure proper drainage. Plus, it includes a 3 1/2" basket strainer to catch food debris, which prevents the drain from clogging. For easy cleaning, the compartment has rounded corners so you can rinse and wipe down the sink.

A 9" tall backsplash is included and comes complete with two 1 1/8" diameter holes punched on 8" centers to accommodate a faucet (sold separately). This sink also includes a 1 1/2" raised rolled edge, which is 2" tall on the front and both sides to contain splashes and overflow. Galvanized steel legs with sockets and adjustable bullet feet provide added stability. Designed for medium-duty use, this Regency sink is ideal for most restaurants.
