Notes & Details

Ideal for washing pots or prepping food, this Regency one compartment commercial sink is a great addition to your busy commercial kitchen. It's constructed from high-quality, 16 gauge, type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18 gauge material. This sink also features welded construction for long-lasting use and overall strength.

The 17" x 17" x 12" sink bowl is die-stamped to a minimum of 1/4" to ensure proper drainage. Plus, it includes a 3 1/2" basket strainer to catch food debris, which prevents the drain from clogging. For easy cleaning, the compartment has rounded corners so you can rinse and wipe down the sink.

A 10" tall backsplash is included with two 1 1/8" diameter holes punched for a faucet (sold separately). This sink also comes complete with a 1 1/2" raised rolled edge, which is 2" tall on the front and both sides to contain splashes and overflow. The legs are constructed of 1 5/8" diameter galvanized steel with galvanized leg sockets and adjustable plastic feet so you can install this sink to best fit your needs. The deck height is approximately 34". Designed for medium-duty use, this Regency sink is ideal for most restaurants.
