Notes & Details

Outfit your facility with a long-lasting sink with this Regency one compartment commercial sink. It's constructed from high-quality, 16 gauge, type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18 gauge material. This sink features two sturdy 24" drainboards so you can easily wash and dry dishes and utensils in one convenient location. It's also dipped a minimum of 1/4" to facilitate better drainage, and the welded construction contributes to the long-lasting use and overall strength of this sink / drainboard combo.

The 17" x 23" x 12" sink bowl is die-stamped to a minimum of 1/4" to ensure proper drainage. Plus, it includes a 3 1/2" basket strainer to catch food debris, which prevents the drain from clogging. For easy cleaning, the compartment has rounded corners so you can rinse and wipe down the sink.

A backsplash is included and comes complete with two 1 1/8" diameter holes punched on 8" centers to accommodate a faucet (sold separately). This sink also includes a 1 1/2" raised rolled edge, which is 2" tall on the front and both sides to contain splashes and overflow. The legs are constructed of 1 5/8" diameter stainless steel with stainless steel cross bracing and adjustable plastic feet for added stability. These features serve to prolong the life of your sink while adding exceptional strength to the unit. Designed for medium-duty use, this Regency sink is ideal for most restaurants.
