Notes & Details

Wash dishes with ease when you use this Regency 72" two compartment commercial sink. Made of high-quality 16 gauge, type 304 stainless steel for reliable service, this gauge is thicker and much more durable than many similar sinks available that are made of 18 gauge stainless steel. Additionally, type 304 stainless steel is exceptionally corrosion-resistant and easy to clean! It also features 1 5/8" diameter galvanized steel legs with adjustable plastic bullet feet that provide added stability.

Each 17" x 17" x 12" compartment offers rounded corners and ample space to either wash, rinse, or sanitize your dishes as needed. To help keep your countertops clutter-free, the two 18" drainboards offer convenient spaces for holding dirty dishes or drying clean dishes for optimal organization. In addition, each drain includes a 3 1/2" basket strainer to eliminate the possibility of clogging. By regularly maintaining your drainage system, you will cut down on possible service and replacements costs.

Thanks to the high backsplash, water splashes will be confined inside the sink and then directly drip down into the drain. This added feature helps maintain the integrity of your wall and floor to keep your establishment in its best condition. Plus, this hand sink has two holes pre-punched to accept the faucet of your choice (sold separately). The deck height is approximately 34". Designed for medium-duty use, this Regency sink is ideal for most restaurants.
