Notes & Details

Ideal for setting up a washing, rinsing, and sanitizing station, this Regency three compartment commercial sink is the perfect addition to your establishment. Its three 12" x 20" x 14" compartments allow you to conveniently complete the entire dishwashing process - washing, rinsing, and sanitizing - within the same compact unit. It's constructed from high-quality, 16 gauge, type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18 gauge material. Boasting a compact design, this sink is perfect for locations with limited space. Plus, it features rolled edges and a 7 1/4" backsplash, which helps prevent splashes and overflow.

To ensure proper drainage, this sink comes with three 3 1/2" basket drains with strainers. These drains catch food debris, preventing them from clogging. Additionally, this sink sits on four 20 1/2" galvanized steel legs, which feature adjustable plastic bullet feet to accommodate uneven floors. The 18 gauge galvanized steel legs provide your sink with a solid, reliable foundation to rest upon, so you always have somewhere to wash, rinse, and sanitize dirty dishes. Designed for medium-duty use, this Regency sink is ideal for most restaurants.

Kit Includes:

- one Three compartment sink
- three Basket drains with strainers
- four Galvanized steel legs
