Notes & Details

Ideal for setting up a washing, rinsing, and sanitizing station, this Regency three compartment commercial sink is the perfect addition to your establishment. It's constructed from high-quality, 16 gauge, type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18 gauge material. Boasting a compact design, this sink is perfect for locations with limited space. Each of the three sink bowls measures 12" x 20" x 12". It also features rolled edges and a 7 1/4" backsplash to help prevent splashes and overflow.

To ensure proper drainage, this sink comes with three 3 1/2" basket drains with strainers. These drains catch food debris, preventing them from clogging. Additionally, this sink sits on four 20 1/2" stainless steel legs, which feature adjustable stainless steel bullet feet to accommodate uneven floors. The 18 gauge stainless steel legs provide your sink with a solid, reliable foundation to rest upon, so you always have somewhere to wash, rinse, and sanitize dirty dishes. The cross bracings provide extra stability, all while prolonging the life of your sink. Designed for medium-duty use, this Regency sink is ideal for most restaurants.

Kit Includes:

- one Three compartment sink
- two Cross braces
- three Basket drains with strainers
- four Stainless steel legs
