Notes & Details

Outfit your facility with a long-lasting sink with this Regency three compartment stainless steel sink. Featuring three compartments, the sink is perfect for dishwashing applications, with three 24" x 24" x 14" sink bowls for each of the three stages of the washing process. Made of durable 16 gauge, type 304 stainless steel, the sink is sure to withstand constant use in a bustling commercial environment. The metal won't rust or corrode, nor will the stainless steel legs and sockets. For added structural strength, the legs include H-shaped braces that ensure that all parts of the corner unit are properly supported at all times.

A set of adjustable stainless steel bullet feet provides stability. Two sets of faucet holes are punched into the metal on 8" centers to accept a splash-mount faucet (sold separately). For your convenience, a 3 1/2" drain basket is included for easy cleaning. Designed for medium-duty use, this Regency sink is ideal for most restaurants.
