Notes & Details

Outfit your facility with a long-lasting sink with this Regency four compartment sink. Featuring four compartments, this sink is perfect for dishwashing applications, with an 18" x 18" x 14" sink for each of the three stages of the washing process and one left over to soak dishes. With two 18" drainboards, you can increase your drying space and declutter your drying racks and countertops. With the added workspace, you can create an efficient workflow in your kitchen.

Made of 16 gauge, 304 type stainless steel, it's more durable than other sinks made from thinner, 18 gauge material. The metal won't rust or corrode, nor will the stainless steel legs and sockets. Plus, it's easy to maintain and can be wiped clean at the end of the day. For added structural strength, the legs include H-shaped braces; these ensure that all parts of the corner unit are properly supported at all times. A set of stainless steel bullet feet provides stability. Faucet holes are punched into the metal on 8" centers to accept a splash mount faucet (sold separately). For your convenience, a 3 1/2" drain basket is included for easy cleaning. Designed for medium-duty use, this Regency four compartment sink is ideal for most restaurants.
