Material	Stainless Steel
Number of Compartments	1 Compartment
Stainless Steel Type	Type 304
Table Style	Open Base
Tabletop Material	Stainless Steel
Type	Soaking Sinks
Weight Capacity	800 lb.

Notes & Details

Add valuable sorting space to your kitchen with this Regency 30" x 96" 16-gauge type 304 stainless steel sorting table! This sorting table features the heavy-duty welded construction of Regency work tables with the added benefit of a 3" raised edge on all sides to contain the mess of warewashing! The table is perfect for virtually any food service operation, providing a convenient place for staff to categorize dishes for drying. It comes with a 20" mobile silverware soaking sink to increase dishwashing efficiency in your busy kitchen, helping to soak silverware prior to the wash cycle to ensure a complete cleaning.

The table and soaking sink boast a heavy-duty 16 gauge type 304 stainless steel, offering more durability and corrosion resistance than type 430. This table is built to last in heavy-use, commercial applications with a durable type 304 stainless steel tabletop, legs, sockets, and bullet feet. Thanks to the stainless steel side and rear cross bracing on the unit secured by strong sockets, this table has enough support to hold even the largest stacks of dinnerware. The soaking sink's durable construction can withstand frequent use anywhere in a commercial kitchen, and its 4 swivel casters (2 with brakes) and tubular legs make relocating the unit a simple task.

The mobile soaking sink accommodates 19 3/4" x 19 3/4" dishwasher baskets (sold separately). With the twist action lever drain, emptying the soaking sink's bowl for immediate cleaning and speedy refilling is simple. The table is also easy to clean and its raised edges help contain messes, making this table and sink a perfect addition to your kitchen.
