Size	36" x 72"
Stainless Steel Type	Type 304
Tabletop Material	Stainless Steel
Top Capacity	640 lb.
Type	Work Tables
Undershelf Construction	Stainless Steel
Usage	Standard Duty

Notes & Details

This Regency 36" x 72" stainless steel commercial work table with casters is a great way to provide additional work space for your business. It features a 16-gauge stainless steel top, which provides plenty of space for food prep, packaging, and a wide range of other tasks. 304 series stainless steel is used in the worktop to provide greater durability and corrosion resistance over type 430 stainless steel.

An adjustable undershelf made from 16-gauge, 430 series stainless steel provides additional storage and organization options under the worktop. Use this shelf to store commonly used items, appliances, or ingredients where you can access them easily. Just be sure to install it 6" off of the ground when used in food service applications to comply with food safety regulations. The legs of this work table are 1 5/8" in diameter and are made of stainless steel, with 5" casters to make it mobile. 2 casters come with brakes to lock it in place. The worktop can hold up to 640 lb. of evenly distributed weight, and the undershelf can hold up to 410 lb.
