Notes & Details

This Regency 24" x 48" 16-gauge 304 stainless steel wall mounted table is a perfect way to increase your usable workspace, while providing more stability and taking up less room than a conventional worktable! Built to withstand heavy use, this unit features a 16-gauge stainless steel top, while a 4" backsplash helps protect your walls from dirt and debris.

It installs by mounting the top to a right angle bracket (secured to the wall), and mounting the 4 3/4" tubular wall brackets into a steel, wall mounted embossed flange to provide additional support. Due to the wall-mounted design, users are given flexibility to place the table at any height, ensuring it will fit in any environment. This wall mounted table is ideal for environments with frequent wash downs, and is quick and convenient to set up. Mounting hardware is sold separately.
