- 9 3/8" x 14 3/4" x 11" ice bin with sliding lid
- 6" long gooseneck spout, 2 GPM flow rate
- Includes a 1 1/2" IPS sink bowl brass drain connection

Certifications

Certified by NSF

1/2" Water Connection

Technical Data

Faucet Height	9 3/16 Inches
Ice Bin Height	11 Inches
Bowl Front to Back	11 1/2 Inches
Bowl Left to Right	8 1/2 Inches
Capacity	20 lb.
Color	Silver
Drain Outlet Size	1 1/2 Inches
Edge Style	Flush
Faucet Centers	4 Inches
Features	BPI Certified NSF Certified
Flow Rate	2 GPM
Gauge	18 - 20 Gauge
Handle Type	Lever
Included	Faucet
Installation Type	Drop-In
Lid Type	Sliding
Material	Stainless Steel
Number of Compartments	1 Compartment
Plug Type	NEMA L6-30P
Spout Type	Gooseneck
Stainless Steel Type	Type 304
Type	Drop-In Sinks
Water Inlet Size	1/2 Inches

Notes & Details

Clean glassware or wash hands while keeping ice stocked and ready nearby with this Regency drop-in hand sink with ice bin. Perfect for behind-the-bar use, this standard-duty combination sink and ice bin features a durable corrosion-resistant type 304 stainless steel construction. Plus, the 8 1/2" x 11 1/2" hand sink bowl is constructed of 18 gauge stainless steel.

Maintain cleanliness behind your bar while also keeping ice within reach. This sink drops down into a cutout in your existing countertop so that it doesn't take up additional wall space. It also has a sleek, professional look! With both hot and cold water capabilities, this drop-in sink is a practical solution in a variety of settings.

The 9 3/8" x 14 3/4" x 11" ice bin is equally durable, with an attractive 20 gauge stainless steel construction that looks great at your bar or pub and is easy to keep clean. Stainless steel is also an excellent material for retaining cold temperatures, making it perfect for ice storage. The included sliding lid provides further cold retention and protects ice from dirt and other contaminants. This sink includes a 1 1/2" IPS sink bowl brass drain connection.

The included deck-mounted faucet has a chrome-plated brass faucet body and ceramic cartridges engineered for durability. It features a 6" long swivel gooseneck spout that provides a sleek look with plenty of clearance, while a 2 GPM aerator provides a consistent flow rate and minimal splashing. It boasts a set of 4" adjustable centers, while the deck-mounted design is easy to install with 1/2" male NPS inlets.

The faucet uses ceramic cartridges, which provide a much lower failure rate than the compression cartridges widely used in the industry. In this design, 2 ceramic discs fit together to create a watertight seal when closed. This removes the need for a rubber seat washer, which is one of the most frequently replaced parts on a faucet. The sturdy lever handle design makes it easy to turn the water flow off and on.
