Notes & Details

Ideal for washing pots or prepping food, this Regency one compartment commercial sink is a great addition to your busy commercial kitchen. It's made from high-quality, 16 gauge, type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18 gauge material. This sink also features an 18" drainboard so you can easily wash and dry dishes and utensils in one convenient location. And with a welded design, this sink provides added durability at key structural points.

The 18" x 18" x 14" sink bowl is die-stamped to a minimum of 1/4" to ensure proper drainage. Plus, it includes a 3 1/2" basket strainer to catch food debris, which prevents the drain from clogging. For easy cleaning, the compartment has rounded corners so you can rinse and wipe down the sink.

A 9 3/4" tall backsplash is included with two 1 1/8" diameter holes punched on 8" centers for a faucet (sold separately). This sink also comes complete with a 1 1/2" raised rolled edge, which is 2" tall on the front and both sides to contain splashes and overflow. The legs are made from 1 5/8" diameter galvanized steel, with plastic bullet feet that adjust to keep your sink level on installation. Designed for medium-duty use, this Regency sink is ideal for most restaurants.
