Number of Faucets	1 Faucets
Stainless Steel Type	Type 304 Type 430
Style	Cabinet
Type	Mop Sinks
Water Inlet Size	1/2 Inches

Notes & Details

This Regency stainless steel mop sink cabinet is a great way to keep all your mopping supplies organized and ready to use when you need them. If your installation requires a mop sink, this cabinet kit has everything you need in a convenient, easy-to-install package. It includes a mop sink with a 20" x 16" x 12" bowl to provide a dedicated sink for washing mops, filling containers, emptying mop buckets, and other janitorial needs. And since the sink is made from 16-gauge, type 304 stainless steel, it provides excellent durability and corrosion resistance where it's needed most. The included wall-mounted faucet boasts a heavy chrome-plated brass construction and includes built-in service stops. Plus, its vacuum breakers help prevent water backflow, ensuring proper functioning in your establishment.

The cabinet features a fully welded design to provide maximum durability, while the open back and ventilation slits built into the sides promote proper airflow. The interior of the cabinet also helps to keep you organized with a mop holder for each side and a stainless steel storage shelf for keeping all of your gloves, cleaning products, and other commonly used supplies close at hand. The door features a recessed handle and comes with a lock and key to keep the cabinet's contents secure when not being used. The sides, 15 degree angled top, and storage shelf are all made from 18-gauge type 304 stainless steel, while the bottom and door use type 430 stainless steel (22-gauge on the door, 18-gauge on the bottom).

Kit Includes:

- Regency stainless steel mop sink cabinet - 25 1/4" x 22 5/8" x 84"
- Waterloo wall-mounted mop sink faucet with 8" centers
