Hertz	60 Hz
Phase	1 Phase
Voltage	120 Volts
Color	Silver
Connection Type	Cord and Plug

CERTIFICATIONS

 Certified by NSF

 5-15P

 UL Certified

TECHNICAL DATA

Control Type	Thermostatic
Features	Corrosion-Resistant Lighted NSF Certified UL Certified With Sneeze Guard
Heating Source	Metal Sheathed / Calrod Rope
Installation Type	Countertop
Light	With Light
Material	Aluminum Stainless Steel
Plug Type	NEMA 5-15P
Power Type	Electric
Shelf Warmer Wattage	960 Watts
Stainless Steel Type	Type 304
Strip Warmer Wattage	1750 Watts
Temperature Range	80 - 212 Degrees F
Temperature Settings	Adjustable
Type	Warming Shelves
Usage	Medium Duty

Notes & Details

Keep foods hot and ready to eat with this Servit 60" stainless steel heated shelf warmer with lighted strip warmer! This buffet warmer comes with a versatile shelf warmer that's a must-have foodservice tool. It's perfect for holding food in buffet lines, self-serve stations, or even in pass-through areas where you're warming pizzas or a pan of chicken wings. It also comes with a 60" lighted strip warmer to help ensure your food is hot and ready to serve. The lighted strip warmer comes with shatter-resistant incandescent lights that provide bright, high-quality lighting for any kitchen.

Durable and corrosion-resistant, the shelf warmer is constructed of 304 stainless steel, making it a long-lasting addition to your kitchen. It features 960W of power and is thermostatically controlled with gentle rope type elements, allowing you to set the temperature from 80 to 212 degrees Fahrenheit. It also includes adjustable rubber feet and a marine edge to prevent slippage. It's perfect for keeping your products warm and ready for your customers.

The strip warmer comes with (5) 40W light bulbs and provides 1,750W of heat. It features thick insulation and an aluminum reflector to retain heat and direct it towards your shelf warmer. The simple on / off toggle control allows for easy use, while the durable yet light weight aluminum housing prevents sagging. This sheathed heating element won't dry out your food, and the metal guards provide support without affecting heat distribution. Additionally, the included 2 plastic sneeze guards are easy to install, helping to protect food from contaminants.

Both units come with their own plug so you can begin using them right away! These units also come with mounting brackets to fit the two together, and self-tapping screws are included to install the sneeze guards. Each unit requires a 120V electrical connection for operation.
