Style	Ice Cooled
Type	Food Tables

Notes & Details

Chill, protect, and mobilize your cold products with this complete ServIt stainless steel 2 pan ice-cooled food table, 2-sided sneeze guard, side tray, and caster kit. The food table has a spacious ice well that allows you to place (2) 12" x 20" food pans, or multiple food pans of various sizes. The ice pan slopes down to a 1" IPS drain to facilitate smooth, hassle-free drainage of melted ice. The pan features fiberglass insulation to guarantee maximum temperature retention and product longevity. An 8" x 29" white thermoplastic cutting board is included with this table, ensuring you will have a convenient place for preparing food! The top and bowl of this unit are constructed with 20-gauge 304 stainless steel, which ensures long-term durability in commercial environments while remaining easy to clean. This ice-cooled cold food table also features a 20-gauge undershelf with galvanized steel sockets to provide additional, easy-to-access storage for cooking equipment and supplies.

The 2-sided sneeze guard is a perfect companion for 2-pan food tables. Sneeze guards like this one are designed to enhance safety when serving food, as the acrylic shield design creates a barrier between your food and the people viewing and serving it. This reduces the chance for foodborne illness to spread and keeps your employees and customers healthy! It features a 2-sided design that's perfect for buffet setups and self-serve applications, and a buffet canopy covers the top.

On the perimeter of the food table, there are solid drop down side tray slides. Tray slides like this one give customers and employees a place to set down trays and plates while they get their food. It features a drop-down, solid design that can be folded up when not in use, and it is made from stainless steel for easy cleaning and added durability. Mounting hardware is included for both guard and slide trays. In addition, this kit comes with (4) polyurethane casters with brakes. This helps turn the table into a mobile station. The 300 lb. weight capacity enables mobility of the table, even when filled with product. It also raises the equipment by 6", which can help make the work area more comfortable and ergonomic.

Kit Includes:

- (4) Regency 5" polyurethane work table and equipment stand casters with brake
- (2) ServIt 423ST2TSDS solid drop down side tray slide for 2 pan steam tables
- ServIt CFT2 stainless steel 2 pan ice-cooled cold food table with undershelf
- ServIt 423ST2B1SC self-service 2-sided sneeze guard for 2-pan steam tables
