Notes & Details

Keep foods hot and ready to eat with this Servit 30" stainless steel heated shelf warmer. This shelf warmer is perfect for holding food in buffet lines, self-serve stations, or even in pass through areas whether you're warming pizzas or a pan of chicken wings. It's thermostatically controlled with gentle rope type elements, allowing you to set the temperature from 80 to 212 degrees Fahrenheit.

Durable and corrosion-resistant, this shelf warmer is constructed of 304 stainless steel, making it a long-lasting addition to your kitchen. It features adjustable rubber feet and a marine edge to prevent slippage. This shelf warmer is perfect for keeping your products warm and ready for your customers. This unit requires a 120V, 480W electrical connection for operation.
