

T-REXTM Machines

Total Rotary Extraction

Mytee's® high performance rotary extraction tools are the peak of carpet cleaning technology. The rotary action of the cleaning head does all the work. Which means significantly less effort is required to operate the T-REXTM versus the effort required to scrub back and forth with a wand.

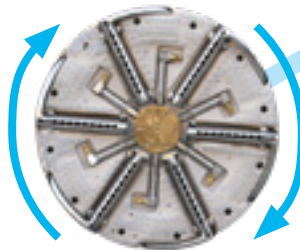

Make more
money
in less time
with better
results

Motor	1 horsepower	0.5 horsepower
Power Cord	25' lighted extension cord	25' lighted extension cord
Amp Draw	8A	3.8A
Machine Weight	83 lbs.	52 lbs.

Unique technology

Unlike other rotary machines, Mytee's® T-REXTM units clean carpet fibers from the bottom-up. This allows for carpet restoration that restores bounce to fibers.

Faster cleaning

The T-REXTM machine makes over 960 cleaning passes per minute. The result? Now you can use the time you just saved to book another job, meaning more money in your pocket.

Deeper cleaning

The T-REXTM has 6 spray jets and 6 vacuum nozzles, more than any other rotary machines on the market. So you get more agitation, faster drying times, and better results.

Versatility

With interchangeable heads, you can use different cleaning methods for different jobs. From encapsulation cleaning to commercial glue-downs, our T-REXTM units are sure to outperform your expectations.

Gain repeat customers

There's nothing better than the satisfaction of a job well done. Especially when it earns you the loyalty and appreciation of a customer.
